Materials used in the apartment include large-format aluminum windows, sun-blocking interior electric blinds in the living room, Miele appliances, a granite countertop, and wooden oak floors in the rooms. It is one of the few projects in Prague that features a swimming pool with a counter-current system, a sauna, fitness center, squash court, and other sports facilities directly in the building.

The Hřebenky area is a highly prestigious location filled with greenery and excellent access to the city center. The convenience of being close to the OC Smíchov shopping center, a tunnel connecting the north and south of the city, and the D5 highway is also a benefit. The house is situated near international schools and kindergartens.
