

Land

3 433 m² Praha-západ

481 700 €

We are offering for sale an attractive plot of land with an area of 3433 m² located in the village of Jíloviště in the Prague-West district, Central Bohemia region. The plot is ideally situated near a highly frequented high-speed road D4 connecting Prague, Mníšek pod Brdy, Příbram, and further to Strakonice.

According to the zoning plan, this plot can be used for the construction of civic amenities, commercial facilities of local and supra-local importance. For example, for accommodations, dining, sales, and services. Additionally, buildings and facilities for storage and small-scale production are allowed under the condition that they do not disrupt the environmental quality.

The plot is accessible by an asphalt road where electricity, water supply, and gas are available.

There is also a possibility of connecting to the sewage system nearby.

Purchasing this plot can be financed through a mortgage. From a value-increasing potential perspective, this plot is a good investment for the future.
